All details correct at the time of going to print, July 2019.
We are a major employer in the local economy, with 1,337 employees, of whom 1,107 are drivers, 179 engineers, and 101 are administration and managerial staff. The majority of our employees live within the local communities we serve.

Over the past year, 75 new drivers were trained to become PCV licence holders. In total, 1,091 drivers (including existing licence holders and new recruits/transferees) have been placed in our local places. Our drivers also attend certified classroom courses during the year to maintain their Driver Qualification Card, which requires them to maintain and improve their skills through regular training programmes.

Many of our employees have shown impressive commitment and loyalty to Stagecoach. This year, 79 long-serving employees were acknowledged after accumulating an impressive 2,370 years of service between them, and each one was recognised for their prolonged hard work and commitment over the years at a celebration dinner and awards ceremony.

Our customers
Our customers made a total of over 6 million journeys on our buses throughout the year. During that period, we received 2,552 complaints, the equivalents of one complaint for every 24,000 passenger journeys.

Our Local Customer Communications team strives to maintain and improve customer relationships via social media, telephone, email and web. These channels are used as platforms from which to engage our customer base in both promotional and operational activities, helping to streamline the customer experience and provide proactive and reactive support wherever possible.

Stagecoach North East continues to demonstrate its commitment to making bus travel more attractive and accessible for young people in the region. Following the successful introduction of the £1 single fare for Under 19's, the VIP product range has grown significantly to the increasing volume of bus passengers in the region.

In August 2018, Stagecoach North East invited families in Tyne & Wear to leave the car at home and benefit from exceptional value when travelling together, with the introduction of the Family dayrider PLUS ticket. The offer ticket gives a great incentive to make the most of public transport whilst taking in the wide variety of visitor attractions available across the boroughs and cities. The initiative has now been rolled out across Teeside and in Hartlepool.

November 2018 marked the roll-out of a set of Group-wide initiatives designed to remove barriers to bus travel and encourage modal shift. The north east team introduced a standardised fare structure for one-hour journeys in Hartlepool, with the new one-price ‘Hartlepool Anywhere’ ticket allowing passengers to travel anywhere within the town for £1.80 (or £1 for under 19s).

Our environment
We are making some real strides in becoming a greener, smarter bus company; the recent inception of mobile tickets and reusable smart cards helps to significantly reduce the number of paper tickets issued by ticket machines, whilst our investment in environmentally friendly vehicles continues to grow.

We work with drivers continually to improve driving skills and use a monitoring system on buses called GreenRoad. Using a traffic-light LED system on the dashboard, GreenRoad gives drivers instant feedback on their driving methodology, removing the need at rest of co-driver, saloon, and more fuel-efficient driving.

In the last year 255 drivers (40%) were awarded Fleet Elite status under a comprehensive drive and safety measurement programme managed by GreenRoad.

A total of 20 Fleet Elite drivers have avowed the Gold badge for consistently maintaining their Fleet safe and fuel-efficient driving for three consecutive years, whilst 128 drivers achieved the Master Fleet Elite status for maintaining the rating for four or more consecutive years.

Our services
We operate a fleet of 437 buses and have invested millions in new buses for local areas over the past couple of years, all of which are fully accessible and meet the latest Euro emission standards. With newer buses featuring USB charging points, a total of 210 buses in the North East fleet now also fit the Technology Act WLI for the convenience of our customers.

Stagecoach North East places the utmost importance on vehicle presentation and our local teams are tireless in their efforts to maintain high standards of cleanliness for customers, both on-board and externally.

Our services
We operated over 19 million miles over the last year and passengers made over 6 million journeys.

Investments
Contactless, smart ticketing and the Stagecoach Bus app offer yet more convenient options. Customers and contribute to reducing dwell times which speeds up customer journeys. The first bus company in the group to introduce contactless payments across the entire fleet, the technology at Stagecoach North East now captures 32.3% of our on-bus sales while contactless transactions reached a value of £0.01 million in March 2019. The Stagecoach Bus app offers a simple journey-planning tool which uses interactive maps, which require GPS system to help customers identify their nearest bus stop, and the most suitable bus service for their journey requirements. It also find out information on journey duration, and live running times to check the status of their journey before catching the bus. In addition, the Stagecoach Bus app enables customers to pinpoint their location during their journey, helping them determine where they are on the route at any one time, how far they are from their destination and when to get off the bus, which is particularly beneficial to key disability groups and those who are not regular bus users.

Our community
In November 2018, Stagecoach North East won Bronze in the Bus and the Community category of the UK Bus Awards 2018, following its successful fundraising efforts during the previous Christmas period which saw over £200,000 collected on-board for local charities.

Subsequently, during Christmas 2018/19, our renewed fundraising initiative led by driving staff in the north east and delivered by the hard, collaborative work of key departments within the company, raised an outstanding £30,000 for local charities, representing a year on year improvement of £1,000. Over the past three years alone, the cumulative total of Stagecoach North East’s Christmas fundraisers has reached over £80,000.

In April 2019, Stagecoach North East further demonstrated its commitment to local communities with the commencement of a long-term partnership with The Sunshine Fund, a Newcastle-based charity which raises funds for local children and families affected by disabilities. The partnership aims to raise wider awareness of the charity’s great work using on-board promotion and social media, and a pledge to help reach more families in need throughout the region.

In partnership with Newcastle United Foundation, Stagecoach North East provided hundreds of free travel passes for young participants. This initiative helped them to reach their destination and when to get off the bus, which aims to improve employability in tandem with the NE1 Works initiative and the ongoing work of National Citizen Service.

Recently the company also collaborated directly with National Citizen Service in an additional bid to boost career opportunities for local young people. NCS participants are now guaranteed first interviews for the award-winning Stagecoach apprenticeship scheme. Stagecoach North East currently employs a total of 14 engineering apprentices from within its local communities.
