

What is a coolrider?

it's a ID card which allows **16** and **17** years olds to purchase a 10 journey ticket at a greatly reduced fare.

How to get an ID card.

first you need an ID card!

fill in the form below, bring it to your nearest Stagecoach depot along with your birth certificate (originals only – no photocopies) and a passport photograph. There is a £5 admin charge which covers the cost of the ID card. We will do the rest, and within 14 days you'll have your coolrider ID card and can start saving!!

How much will you save?

a coolrider ticket is worked out by multiplying the single adult fare by ten and then halving the result! e.g....

10 x 90p single would usually be **£9**. With a coolrider it's only **£4.50**

10 x £1 single would usually be **£10**. With a coolrider it's only **£5**

10 x £3 single would usually be **£30**. With a coolrider it's only **£15**

so if your single fare is £1 or over you can save the price of your ID card straight away and save pounds week after week!

If your single fare is more, **you'll save more!**

one more thing.

if you're one of those people who look older than they are (useful sometimes, but not when you try to get a half fare on a bus!) get yourself a coolrider! This will prove to the driver that you ARE under 16 and when you actually come of age you'll already have the card and be entitled to a further **TWO YEARS** cheap travel.
