

# Stagecoach Advent Calender

Count down to Christmas with this fun project you can make at home

## You will need

- 8 x toilet roll tubes
- Scissors
- Glue or tape
- Printed templates
- Cardboard Box

1. Collect 8 cardboard toilet roll tubes, measuring 4.5cm x 10.5cm. You'll be cutting each tube into 3 equal pieces to make the advent door holders. Mark 3.5 cm from each tube edge as shown and cut along the dotted line.

2. Create a box to hold your advent doors. This will measure 18.2 wide x 27.2 tall and 3.5 deep. Start by sticking the decorated printed templates to a piece of cardboard. Once in place cut around these carefully with a pair of scissors. You'll need to stick each part together with glue or tape as shown.

3. Once your box is ready you can carefully fix your 24x advent holders in place with glue or tape in 6 rows of 4 as shown.

4. Use the template provided to cut 24 advent door fronts out of cardboard. Decorate each door front with a number from the printer template provided. Fold along the dotted line - this will be your door hinge. Glue each tab to a single toilet roll tube as shown.

5. Glue your bus frame front to a piece of cardboard and cut around as shown. Cut out the marked hole for the advent doors.

6. Glue your support template to a piece of cardboard and cut around as shown.

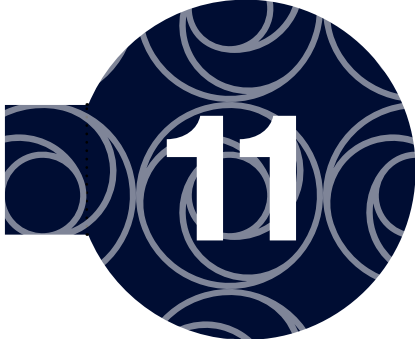

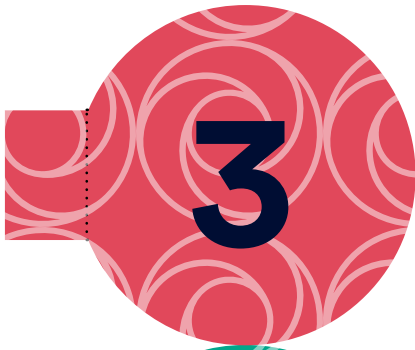

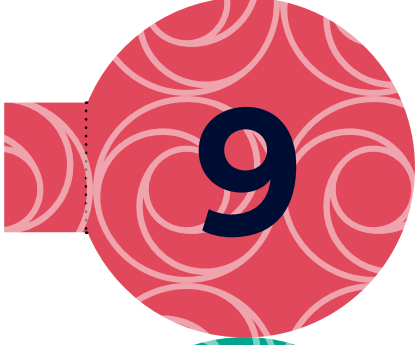

7. Finish by fixing your advent holders box and support to the bus frame front.

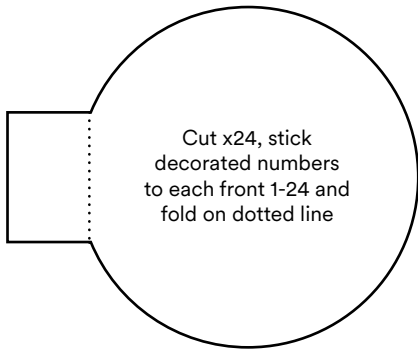

8. Fill each advent holder with a treat of your choice ahead of the 1st of December!
