

It's been an interesting few months.

Like the rest of the world we've had to make some big changes but your safety, and the safety of our employees, is still our top priority. Since March we've upped our cleaning across our whole fleet.

Here are just some of the numbers...

1.25
million litres of
sanitising solution

20,300
litres of hand sanitiser

410,000
antibacterial
wipes

750,000 is the staggering number of times we've cleaned the touchpoints – handrails, bells and poles.

£100,000
donated

As a result of the exact fare process, our customers have donated over £100,000 to the NHS Charities Covid-19 appeal.

250,000
free journeys to NHS staff

We're proud to have kept the UK's key workers moving during this pandemic and to have donated 250,000 free journeys to NHS staff.

The country is on the move again and our buses, trams and coaches are here to get you where you need to be. **We're proud to serve.**
